Acoustic, Electric Folk, Ambient mix 14 MP3 Songs FOLK: Modern Folk, EASY LISTENING: Soft Rock
Details: Good Enough (also known as GE, but don't tell the guys who make light bulbs and bombs) is a band of 3 brothers: Dan, Larry John Modaff. The boys write, record, and produce original tunes at the luxurious alphawave audio studios (John's garage) in Morehead, Kentucky. "Yes It Is" will please you no end if you like a mix of styles, themes, voices, and moods. To wit: Larry's "Sing For You" is a modern folk tune with a good pace and lyrics focused on music and love (or is that music in love!?) "I Hate Cats" by guest composer Phil Modaff is our most-often requested and occasionally detested song, generally loved by cat-fans and cat-eaters alike. "Time Is Telling You" will rock your bass-bone while reminding you a bit of Genesis in the early days, or even some of the VERY earliest Supertramp. Dan's "Light In The Window" and "Homeless" show his great range as a composer, as comfy with ballads as he is rockin' against the injustice of the city street. Our motto: Play Loud; Play Often. Enjoy!
