

Mp3 Harry Allen - Jazz For The Heart

[DOWNLOAD HERE](#)

Smooth Jazz 14 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Traditional Jazz Combo Details: McMahon Jazz Medicine is pleased to announce the release of Harry Allen's new CD, Jazz for the Heart, the second in what promises to be a four-set series of recordings under the McMahon Jazz Medicine label. Their first effort, Jazz for the Soul, successfully showcased the tenorists mastery over his instrument, confirming his place as one of the greatest proponents of melodic jazz today. This latest work is well worth the wait. Indeed, Jazz for the Heart is a masterful melodic marvel, with Harry Allens expertise in evidence with every note played. His sound is reminiscent of Stan Getz on the upper register and invokes the deep, breathy richness of Ben Webster on the lower register. The first album of the series, Jazz for the Soul, was a very successful recording, with sales in the thousands, and the new CD, Jazz for the Heart, is destined for the same fate. The Harry Allen and Joe Cohn quartet, which features Joe Cohn on guitar, Joel Forbes on bass and Chuck Riggs on drums, recently received the 2006 award for Outstanding Jazz Combo, presented at the New York City Nightlife Awards. This latest award reconfirms the bands excellence, as does the excellently crafted Jazz for the Heart, which reinterprets a superlative list of love songs, including a great take on Skylark, the classic from Johnny Mercer and Hoagy Carmichael, and a blissful Moonlight in Vermont. Other great takes include Smoke Gets in Your Eyes, In the Wee Small Hours, and Mona Lisa. There are nine others, one of which is Harry Allens own If Theres a Sky Above. The band, augmented by typically great piano artistry from John Bunch, is supportive throughout but content to let Harry Allens work take center stage. The mood is sensual, sensitive, and serene. It does a heart good. . . .
