blues with a touch of rock and some rock a billy thrown in the mix. 10 MP3 Songs

**BLUES:** Rockin' Blues,

**COUNTRY:** Country Rock Details: Jerry Jakala/ Biography

Jerrys music is a mix of influences, including, but not limited to, Lynyrd Skynyrd, ZZ Top, Ray Charles, Bob Seger , Stevie Ray Vaughn, The Eagles, Luther Allison, Eric Clapton, The Doors, Albert King, Freddie King, Kenney Chesney, Albert Collins, David Gilmore, BB. King, Savoy Brown, The Beatles, too many others to name. Jerry plays Bass, Guitar sings, as well as writes and records his own music. After 5 years of being more than a little unhappy with his cd Audio Mobile, Jerry decided to have it re-mixed and re-mastered rather than scrap it. The music itself was good but the mixing and mastering were really lacking, which resulted in a very muddy sounding cd with buried vocal tracks. Thanks to Mike Miulli at Sound waves Studios, the imperfections were fixed and Audio Mobile is something to be proud of. The new and improved audio Mobile is what you will hear. Jerry is also a member of the Horse Feathers band, the official Tampa Bay Chapter Of Just Plain Folks band that backs songwriters with their original material. Depending on what is needed Jerry is capable of playing bass or guitar in the Horse Feathers band. The other core members are Andy Karpinski, Dan Copeland, Mike Miulli and Alex Wolfe Parnes. We are all multi instrumentalists so Horse Feathers is very capable of putting together what ever a songwriter needs for his song to be performed by a full band. Jerry is also the Tampa Bay Chapter of Just Plain Folks Co-coordinator. Just Plain Folks is a worldwide music organization made up of over 40,000 musicians songwriters, just about every other conceivable job that has a connection to music.
