Fresh arrangements of some jazz standards plus a few originals set in an acoustic vocal jazz setting. 12 MP3 Songs JAZZ: Jazz Vocals, JAZZ: Smooth Jazz Details: "Kelly De Haven has developed into a master of her craft, achieving that ever elusive jazz goal - "a style of her own". She's known for hanging out with great musicians (her band always includes the best in the area, and their influence definitely shows). De Haven improvises like a horn player. She loves textures, luxuriating in a dreamy fog or articulating with shivery intensity. Her style is especially effective on love songs - few other singers bring such a yearning to a romantic lyric."
