Tech N9ne Garth Culti-Vader Keeping the heat on during the cold months of winter, Tarantic Records returns with yet another adventurous release. Keep It Hott, a hip-hop track originally written by Tech N9ne and Garth Culti-vader, comes to us by way of The Middle Agent. Humboldt county-based The Middle Agent created a gritty, techy, synth-infused hip-hop mix that immediately caught our attention. Turning up the house vibes full-blast, Ben Tom craftily edited the vocals, repeating the phrase everybody in the front get down to create a powerful dancefloor mantra of sorts. Were certain everybody in the club will get down to this! Funky as ever, BradElectro remixed the track in a classic 80s hip-hop style, keeping the fun factor maxed out. Amit Shoham gives the track a deep and lush make-over, effortlessly transitioning from a house beat to a funky triplet groove and back again for a truly unique sound.
