Just a really nice album. There are songs you'll know and songs you won't. Music Maestros have a way of putting a song across in a simple, accessible way that children will love. What's more, so will you. 16 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Kid Friendly Show all album songs: Music Maestros Band Songs Details: The person behind Music Maestros is Tim Hodgson. Tim trained as an actor and in musical theatre. He formed Music Maestros when he felt his own children weren't getting access to the sort of introductions to music they deserved. He began running music sessions for children as well as taking his work to children with special needs. Then came the band...then came the album. This CD is a return to the charming music we remember from our own childhoods and giving it a modern twist. From the New Orleans trumpet solo of 'Music Maestros Band' to the incredibly simple 'Caterpillar Song' and the charming space flight of 'I'm Gonna Fly, Fly, Fly' this album will delight you. "this CD far exceeds any of the other children's music CD's I've heard." Cbeebies (the premier BBC children's TV Channel) presenter.
