Popmusic for the well-being of your heart and soul, with harmonies and influences from the sixties. 8 MP3 Songs POP: 60's Pop Details: The musician, composer, singer and artist Oyvind Ander from Gothenburg, Sweden calls his new CD a piece of art. His art contains three parts: the music, the lyrics and the paintings and all three assemble in the album "In the healing rain". The album has an outspoken message of spiritual wisdom and love. The songs remind of 60s bands like The Searchers, The Beatles and The Hollies. Anders music is also in the Swedish directors movie "Slim Susie" from 2003, realeased on DVD in USA 2006. The album songs should fit perfectly for movies like American Graffiti and Grease. Not the lyrics, but definitively the music. Ander has a light and beautiful voice that fits the genre and the album contains pearls like "Heaven help us all", "Free fall" and the title track "In the healing rain". He also invites us to enjoy some good guitar and piano playing. Simply a nice CD ! ROBERT RYTTMAN ZERO MUSIC MAGAZINE Januari 2006
