

Mp3 Peter Leung - Air Echo Music

[DOWNLOAD HERE](#)

pure music, relax music, eletronica, electric orchestra with sound effects. the world trembles with events, i tremble u with music. Close your eyes listen, it moves u to that scene. 16 MP3 Songs EASY LISTENING: Soft Rock, WORLD: World Fusion Details: To All Music Lovers I like the best 4 music: no.13, 1, 15, 5 (if u've no time) band name:- AIR ECHO MUSIC Relaxing Meaningful Music! One Man Band for now, but if you willing to join me you're welcome! We could cooperate through the computer. Most music of mine has its own meaning, they described the world major events. MUSIC WITHOUT LYRICS Communication Blocks Free! In creating my music, I have the intention of all peoples in my mind. My music is for all peoples, all cultures, and all nations. I hope my music would bring relax comfort to the people who are suffering from day to day. You could hear a lot of sound effects within them, such as no.2 music "Back with Tears", I used different bottles pipes(made by myself) to blow the major part. Many variations I dare to use in my music, eg: "Katrina Story". Even the tempo which changed from 4 to 3 from 3 to 4 to fit different feelings. Really, I don't have formal training in music, I can't even read the music notation, but I love music, I love musical instruments! Once I pick them up I start playing them continuously for a few days, I started composing recording my music edited them in the computer. All music in the CD were composed and synthesized by myself, except "Baby's Pu Tong Hua", which was composed by my daughter Louisa Leung (while she was 8 years old) Peter Leung (me). If you have musical sense, go ahead try it! Don't stop by lacking of musical training! Should you wish to express your opinion or your feelings for my music, you are welcome to email me in English. Email: musicaleung68@yahoo.com

Thanks a Lot! Best Wishes to U All! Copyright 2005-7 Peter Leung Louisa Leung. All rights reserved. 1. Silk Road to Cosmos Began Brave people in Ancient China explored the new world through the Silk Road. Now Modern Chinese used a different "Silk Road" for space exploration. In Jiuquan brave heroes

conquered the most arid desert. Now in the same place, brave Chinese astronauts are preparing for their most demanding space challenges.

2. Back with Tears This music is one of a series of songs on the theme: Silk Road to Cosmos Began. In this music, I wish to capture the feelings of the astronauts and their families. Who would feel the deep cut in their heart should anything unusual happen during their home return? Certainly not the politicians, not the tacticians, not the technicians, and not the citizens! It is the families of the astronauts! In this music, I wish to share with you how I feel their joy and tears!
3. Joy on the Sand A series of Tsunami
04. Who knows what is coming next?
4. Tsunami 04 Two Indonesians shouted: "Wow! Why are there so many live fish lying on the beach? Why?" They then started picking up the fish. Ten seconds later, the giant wave rushed in and carried them away! This was because in the beginning the sea withdrew quickly, and the fish were left on the beach. Then a huge wave came and wash everything away.
5. See U Among the Clouds A series of "Tsunami 04". If you are desperately searching after the disaster, you could see almost anything in illusion!
6. 911 Fight Back Heroes We knew that only the crew and passengers of the Pennsylvanian aircraft Flight 93 showed their courage to fight back against the terrorists. They were the first 911 fight back heroes. Their action is like committing suicide. Without their courageous action and sacrifice we might have to see more buildings coming down.
7. A Screw from Hell After that famous car accident, everyone had suspicion on that. Police found every parts were there, but how about one screw was being loosen? Relax! Its only a story! Shut up.....ssshhhh!
8. Farmer's Voice Since the WTO started. Take a look on their ghetto land! Take a look on our dishes!
9. Some Spies This is only intended for fun! The Almighty said: "Let there be light!" And there was light.... Short tree said: "Let there be troops!" And there were troops. "Let there be bombs!" And there were bombs... "Let there be gas!". But but but there was no gas! "Then, ...make it yourself!"
10. Who Cares But Her "Everyone should be loved at least once in his lifetime!" said Mother Teresa.
11. New Life Started To my wife!
12. Mountain Children This is a song for the poor children in the mountain villages of China. Do you know that some children have to overcome great physical difficulties to go to school? They are somehow like people receiving their daily military training! They hang themselves on a rope and slide on it over obstacles, such as a dangerous river, or over a high cliff. Their rope was their only means of transport. They have to do it this way as they are too poor to afford a bridge to walk on.
13. Highest Train on Earth-Lhasa Lhasa, opened the door to the world! Congratulations! But don't pollute her purity!
14. Katrina Story Hurricane Katrina was a great disaster, but afterwards an even greater disaster

came. It was the slow reaction of the politicians. Today we should take the lesson and prepare the for future. This is to comfort the survived family members and encourage people to keep on helping the recovery of the ruin. This music contains many varied parts but connected smoothly. Hope you enjoy it.

15. Daddy's stress Every early morning a father walk in his daughter's room silently kiss her goodbye while she was sleeping. Then he has to work face his boss who gives him unreasonable work load! The beat of the music was as heavy as his footsteps. 16. Baby's Pu Tong Hua The main part of this music was composed by my daughter when she was 8. This music was put inside the cd of my children learning book "Pu Tong Hua Phonetic Ambassador" which was written by me my wife. Best Wishes to U All!

Yours Sincerely, Peter
