Artist/ Producer/ Writer/ Designer Afro Progressive Hip Hop Soul Muzik 15 MP3 Songs HIP HOP/RAP: Southern Style, URBAN/R&B: Soul Details: Im an independent Artist from San Antonio Texas aka SA-Town Texas. I design everything from my business cards to my website and its not easy work at all, I feel that by producing mastering and laying my own vocals I am giving my fans a much more potent product. I am a member of the 100 skills club = 100 Artist goes into everything I do. My skills are a gift from the creator of the entire universe, so its not about me at all, but what I can do for my people as a result of the continuous focused work that goes into everything I do. My skills are merely a path that leads to my cosmic ballance and to not completely immerse myself into my God given gifts would be nothing less that a slap in the face to him. I CAN DO ANYTHING WITH MUZIK because my power source is unlimited and not bound by this planet. Im currently working on my slow jam album and my hip hop album and then my gospel album, why? Because I can baby! If you are not a progress focused individual, and getting ahead in life is not part of you daily agenda, you may not like my works because my muzik is PROGRESSIVE. Only those that seek growth, knowlege, wisdom, humility and understanding truly grasp the holistic concept of my mission, my message, my Destiny.... The luv I recieve from my fans is a humbling experience and I luv yall too. I hope you enjoy my work and thank you for coming. May Peace Progress and Good Health follow you throughout your days. P.S. If you are an Artist Manager and you are in the market to make moves let me know, perhaps we can make something happen if we think on the same level.
