Hardcore Rap. 10 MP3 Songs HIP HOP/RAP: Hardcore Rap, HIP HOP/RAP: Rap Details: My name is Cyrus(The Virus) Maxon. I was born in Phoenix, AZ October 12th, 1981. Growing up, I always pictured myself doing music. At the age of 13 I started rappin just for the fun of it. A couple of years later I began attending high school and started to take it seriously. After performing a few times, I began making mix tapes and doing house parties on a regular basis. In 2002, I recorded my 1st album in the living room of my apartment using the Playstation MTV Music Generator, a mixer, and a cd burner, then hit the streets and handed out 200 copies for free. After a live performance and giving a cd to a friend, we hooked up with The Gray Room Recording Studio, in Glendale, AZ. We then hooked up with a local female rapper and vocalist(MCT) and recorded an album called The Collective. Afterwards, I immediately began working on a professionally recorded solo project titled Professor Virus. Using my tax return, I had 1000 copies printed and started selling cds for 5 bucks a pop. Satisfied with selling 500 of them, I decided to give the rest away for free and focus my attention on the production of my next project. After a long break from recording and performing, I returned to the studio and began recording my album, then made a 4 track sampler to toss out into crowds during live performances as a promo for my next shit. 01/01/06 is the official release date of The American Dream, which means that we are in the beginning of the new generation of music. The best is yet to come. I do this shit not only because Ive got some shit to say, but also to make people aware of whats really goin on in the world around them. Even though it seems like perfect timing and everything is falling into place, I feel like this is just one of Gods big practical jokes, getting me so close to everything Ive ever wanted in life and then snatchin the shit from out under my nose and laughing in the process. Im an outcast in the hiphop community and I gives not 2 shits about the mainstream. Fuck the industry! Ill let the music speak for itself and let The Juggalo Family decide whats

what. Enjoy
