Pop/Rock, caribbean, regaeton, hiphop 10 MP3 Songs URBAN/R&B: R&B Pop Crossover, ROCK: Modern Rock Details: Hi, Thank you for visiting my page. Different Sides Of Me is a CD I felt I had to do. It's a mixture of some of the different types of music I love. People always say it's like a mix CD but with one artist. I know in a world where the industry likes to receive a certain style of music with a demo submission this would be a very unconventional CD to do. However I'm not like most artists I love music plain and simple. There are sometypes I like more than others but to me a good song is a good song. I hope you can appreciate my broad taste in music. I worked with Grey Foxx from Ivory Pen Entertainment on this entire CD he is the only producer I know who can jump from genre to genre. This is why he was the perfect producer for my first full CD project. If you are a professional in the music industry and are looking for a new artist. There's this girl Wandaliz Colon I have just got to introduce you to she is so hot and a great talent with the perfect attitude for any Record Company. She really does have that star quality. Hold on my name is Wandaliz Colon :) You can also contact me at [myspace.com/wandalizcolon](http://myspace.com/wandalizcolon) and for goodness sake buy the CD. Love you all
