Generate traffic to your sites -I'm sure this isn't a new idea to you, but the first step in making any money online is getting people to visit your site. The important point that's often missed about traffic, however, is that you need to do it consistently, and you need a way to do it that you know costs you less than you earn from it. All the traffic in the world is great, but if you go broke getting it you won't have much of an empire. Capture targeted prospects on an email subscriber list - the fact is, the most valuable asset you'll ever own for your online marketing is your list of subscribers. Why? Because they are targeted, they believe you can offer them some value, and they will buy on your recommendation again and again--which is the #1 source of profits for the "big name" pros you see everywhere online. Building a list allows you to market repeatedly to a growing number of potential buyers. Convert your list into a continuous, predictable, and growing income stream - you have traffic to your site, you are capturing subscribers, and you're building a list. The last vital step in really making money is to systematically develop your relationship with your subscribers, build their trust, and offer products and services they really need and can benefit from using. It takes time to learn the right way of doing this--the bond of trust

is hard to build and easy to destroy, and once it's gone you've lost any possible income potential from those prospects. But when done right, your faithful subscribers will generate enough cash for you to live any type of life you want with complete freedom. "I was impressed by how thorough Brett went through each step of setting up a "micro profit machine." The steps were very well laid out, so that even a beginner couldn't go wrong. However, my favorite part was the first module which went over time management - it gave me a new inspiration for how I will be running my business. Thanks Brett!" Now, the problem is those 3 things are easier said than done. In reality, it's challenging to do all 3 well, at the same time until you gain some experience. Sadly, this experience often comes with a year or more of trial, error, and frustration, not to mention a price tag of \$1,000s in failed attempts. Most people simply can't afford to spend \$1,000s and wait years to be successful. (A hard lesson I learned that nearly knocked me out of Internet Marketing). The great news is, that's all about to change. Introducing the Traffic, Signups, & Sales System--a complete system for generating up to 15,000 hits per website for absolutely zero cost, combined with the most current, cutting edge tactics to get the maximum number of list subscribers from your traffic, AND a real proven formula for converting your list into a continuous profit stream of cash that makes you money every day. But that's not all! The Traffic, Signup, & Sales System also features the one-of-a-kind Internet Marketer's Compass--an amazing tool to keep you laser focused on your most important (and profitable) business tasks, organized with all of your ideas so you don't forget those little "gems" that pop in your mind at the strangest times, and constantly aware of your finances--all at one glance in a single snapshot! The most amazing thing is that you don't need to spend 1 penny to make the entire system churn out profit for you! Here's a closer look...

The Traffic, Signups, and Sales System is a thick, meaty, step-by-step guide with every detail you need to set it up on your own. You get graphics, illustrated diagrams, clear explanations,

and plenty of examples. There is no guesswork, and you don't need to understand programming or be technical to make it work. The system has 4 modules: Module 1: The Internet Marketers Compass This module introduces you to the Internet Marketer's Compass. Learn how to use this one-of-a-kind organizing, power-focus tool to get the absolute best out of your efforts and reach your goals in a fraction of the time it would take without it. It took nearly 8 months to develop it, because it had to make logical sense, be useful, be usable in less than 10 minutes, show a complete snapshot of your business at a single glance, AND be able to come with you everywhere you go. Module 2: Setup the Traffic Generator This module shows you step by step with images and screenshots exactly how to setup your automatic traffic generator. The generator requires no clicking, surfing, or other manual activity once it's setup, and it literally costs nothing to setup and use. This is truly an amazing secret formula to deliver up to 15,000 hits each to as many sites as you want! Module 3: Squeeze Hits into Opt-in List Signups Any web traffic is only as good as what you do with it. This module takes you step by step through designing "squeeze pages" for maximum results using cutting edge techniques the master list builders use. You'll learn how to get prospects practically begging to sign up for your list once you know these secrets! Module 4: Convert Subscribers into Your Monthly Income Stream You've heard "The money's in the list!" 1,000 times I'm sure. This module gives you a specific plan for how to build trust and your relationship with your subscribers, how to know what products and services to offer them, and how to generate a predictable, consistent income that continually increases every month. These secrets make or break tons of Internet marketers, and knowing exactly how to do this can multiply your online income by 1,000 times! Hey Brett, I just wanted to give you a warm thank you for letting me be one of the first to take a look at your system. I believe that anyone can make it online with the right tutoring.
