80s inspired electronic keyboard loops, from Electro Funk thru to Euro Disco. Sizzling leads, funky up synth licks, deep synth basses, sequenced grooves and arps, dark melodic phrases, soulful key loops and FX. Smash Up The Studio presents: Elektrik Disco A classic neon tinged collection of retro keyboard loops perfect for producers of Electro House and Disco. All loops have been performed on a selection of vintage analogue and digital synthesizers and recorded in pristine 24 Bit audio. Midi files have also been included for enhanced versatility and for those who want to use their own synths and plug-ins. We have also included Rex2 files wherever possible. Loops range between 4 and 16 bars in length and are between 110 and 173 BPM with the majority falling between 120 and 130. Each file is tempo labelled. Key signature info is also included (pdf) All the loops you hear in the demo are available in the pack with the exception of the drum loops which are purely for demonstration purposes.
