This item is worth \$99 but today get it here for (.95 Version 1.3.13 introduces new inline HTML content blocks for your forms. Include textual content, imagery, scripts or whatever you would like to enhance your forms. Import/Export Forms Import/export form functionality has been added in version 1.3.13. Now you can build your forms, export them as backups or import them to use on other sites. Better Notification Formatting We have added an option to the email notifications to disable auto-formatting of paragraphs. This option gives you complete control of the email formatting using HTML. Conditional Form Fields Gravity Forms 1.3 adds support for conditional form fields. This means you can show or hide a field or entire sections of the form based on a value selected in another field.
