About Christina's World: A diverse and intimate album reflecting Christina's personality, heritage, home, travels and audiences. This CD features long-standing requests as well as new songs composed for the album. Christina's liner notes: "This collection of music says a lot about me, as well as the audiences who have repeatedly asked me to record it. Two pieces describe how I see the beautiful island I live in. Two songs (from 1936 and 1949) evoke a time when qualities like faithfulness and commitment were generally admired as virtues. Whether people achieved these virtues or not, they aspired to do so, and in this culture flourished what I consider to be the most romantic music of all time. Naturally, when I came to write two love songs of my own, the lush chords and playful rhythms of that time were my inspiration. Two more songs reflect my American cultural heritage. Another was written by a friend and is a favourite of

both mine and many concert-goers. I hope you enjoy this glimpse of my world." Christina People who are interested in Loreena McKennitt Kim Robertson Norah Jones should consider this download.
