Details: I am an El Cajon CA resident transplated from Pennsylvania eight years ago. I went to Berklee College of Music in the 80's. I played in the Progressive Rock band Animation on bass which played both originals and covers. I also played lead guitar in a Grateful Dead cover band. I went back to school after moving west to San Diego State and will soon graduate with a degree in History. I intend on (and have) created something new that will be commercially accessible and yet intellectually stimulating. It will all be based on my roots in progressive, jazz, rock with a little Brill Building sensibility pushing through. I use technology such as musical software to provide a foundation but the human touch will run the day. I intend on putting together a band to play this music in 2009. I will also play in acoustic environments with my originals and some covers. I am putting together another album which is actually a prequel to "Got You on Line."
