Trance 13 MP3 Songs ELECTRONIC: Trance, ELECTRONIC: Dance Details: Parallel to his study of Baroque and Classical music (including composition and orchestration), Stephane Marty (a.k.a. DarkAlbedo Mimozart) started to produce electronic music from 1987 (at the age of 18). His strong technical and artistic background in composition and keyboard practise (he learned to play harpsichord and pianoforte by studying works of J.S.Bach, W.A.Mozart, L.V.Beethoven and F.Chopin) and his passion for synthesizer programming allowed him to write quite sophisticated and stylized electronically produced tunes. Until now, his work always was voluntarily distributed as limited edition... until project DarkAlbedo is born back in 2005... The sound of DarkAlbedo is a complex and unique mixture of various styles (from classical to 70's/80's electro pop/synth pop and new wave) and it doesn't sound like any other... For those of you who want to know the meaning of albedo / dark albedo, here's one of the numerous link available on the net.
