Unapologetically satirical, with a style falling somewhere between Bob Wills and Butthole Surfers. 9 MP3 Songs FOLK: Anti-Folk, FOLK: Psych-folk Show all album songs: Turn It Around!!! Songs Details: "Turn It Around!!!" includes songs recorded by Eddie Glenn from 1995 to 2006 that didn't make it on the first two CDs. Some of the songs are politically incorrect enough to have been on "Un-PC," but they weren't. Some of them are loaded down with enough production and instrumentation to have been on "Hick-Hop," but they weren't. Some of them came into existence since the release of both of those previous CDs, and just didn't have any place else to go.
