An homage to Enigma by an artist who isn't really that much of an Enigma fan. 5 MP3 Songs NEW AGE: Contemporary Instrumental, ELECTRONIC: Ambient Details: About enigmatics "enigmatics" is an homage to Enigma. I appreciate some of the work Michael Cretu has done over the years, but I wouldn't be considered an ardent fan. The only Enigma album I own these days is "MCMXC a.D." So why create an homage to an artist who doesn't cast as large an influence on me as artists I'd consider favorites? Well, that's a challenge, isn't it? It's all too easy to emulate our idols, even easier to ignore what we don't like. It's ambivalence that poses a greater creative obstacle. This music is not the kind I would usually write, but that's the attraction to make it. I may not succeed in the same way as a person who truly loves a particular style or a specific sound, but I like to think the effort to understand is more important. Who knows? I may like Enigma more than I realize. -- Greg Bueno, Eponymous 4 About Eponymous 4

Eponymous 4 is a play on Anonymous IV, an unnamed English student whose writings are some of the few existing documents regarding French music from the Middle Ages. Eponymous 4 is also the home studio project of Greg Bueno, a web developer and lapsed musician. Greg works as a web developer at a technology company in Austin, TX. He studied music and journalism in college, and he writes about music on his weblog, Musicwhore.org. People who are interested in Enigma should consider this download.
