Is there an artist that can mix: Urban, Hip Hop, R&B, Rock, and some Metal? YES and the artist is MOSS. He is the original funk blended urban artist with a dash of rock, hard hitting/smooth hip hop lyrics and extremely catchy west coast hooks. 17 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: West Coast Rap Details: Like every artist with potential and considerable talents, this Canadian born musician and entrepreneur has more than paid his dues, survived some hard times, honed his skill and most importantly, over the past five years carved a niche with his skill and style, that in all likelihood will, allow his rise as one of Canada's, and possibly the world's new "urban rock" scene. As with most, if not all, creative performers, bringing all the components and variables necessary to take a career to another level, are finally together, and MOSS the business is ready to expand. With a resume that has already seen the smooth and elegant emcee get some solid attention with his independent album release 'Strictly 'A' Class', which has been selling strong numbers via the internet through (only1moss.com) in the Asian market, and as of late the European market all the way down to Africa. Add that to being nominated for two international awards for best Hip hop Album (Strictly A Class), and best Hip hop song (Mo' Love). This matched with many live shows and countless nights of rocking the MIC at jam-packed nightclubs, constantly winning over the crowd, which was there more times than not to douse the new entertainer's fire or reduce him to clone status which lead to opening spots for Ashanti, Snoop Dogg, Coolio, Ice-T, and Young MC, as well as an appearance on Much Music and two songs receiving commercial radio airplay on western Canada's: "Kiss 969", and "Peak 107". With his interests being directed towards a distribution deal and or a publishing/ licensing deal, MOSS's time has finally come to take all those experiences and use them on a level that only a few can reach. MOSS has met every challenge thrown his way, learned from them and has never taken his sight off the one goal of becoming a better artist with ever day that

goes by. Management, tangible support and backing from well connected, successful and established behind the scenes individuals in both the creative and administrative ends of the business have fallen into place over the past year that will undoubtedly lead to MOSS finding himself in the working situation he's been striving for over the past couple of years. With the whole team surrounding MOSS new material is being composed and new ideas are being brought forth. It won't be long before the dream becomes reality, and Canada will have yet another artist making waves around the world.
