One'sy Mack crosses most vocal styles while creating a fusion which hints to AC, R&B, POP, Gospel and more, she is a great story teller with clear lyrics that makes the listener see mental impressions of each song. 10 MP3 Songs URBAN/R&B: Contemporary urban, POP: with Electronic Production Details: Dear Fans, I'm tickle to bring you my very own thoughts in music. Singing my first solo in church at six had the message that music was here to stay. Writing poems, taking piano lessons, making up songs helped me shape those raw elements to be a POP-ARTIST WITH A MESSAGE. To appreciate this message led me into writing, singing and producing. Why not? Sometimes I would think of tit tat toe round I go or toe tat tit round I go. Whatever, I held on to who I was and landed in this album, "THE ME IN YOU" and I-o-v-e it. What a joy, what a revelation to share this message with you. From Carolina, to New York, to every step, to the Studio - hard work pays off. It did. I was always tapped for my sound which led me to record with others. Bravo!!! The edge of search engines found it out and it lingers on. My mission - meet everybody, everywhere, singing POP ART WITH A MESSAGE.
