A second collection of unreleased Secret Agent Gel dubstep tunes, "More Floor" contains the best of 2007. 11 MP3 Songs ELECTRONIC: Dubstep, ELECTRONIC: Dance Details: Secret Agent Gel has spent ten years producing and performing electronic music, concentrating on the perfect mix of danceable and interesting. The biggest influences were releases from Rephlex, Warp, Planet-mu and underground electronic music from the UK and the internet. His mix of genres have lead to releases as diverse as DubWar001 (dubstep, 2006) tracks on Recordcamps "Brooklyn Keeps On Takin It" compilation (breaks, 2003) and Badd Inc's first Electroclash compilation (electrohouse, 2004). He's toured the UK, Europe and around the US, playing with Kode 9, Hank ShockLee, Chicks on Speed, Datachi and many more. As underground dance music from UK was always an influence, the sounds of dubstep, 2step and garage house have taken over the Secret Agent Gel studio. Currently he helps run two labels, Low Motion Records and Bass Tourist Records, and throws regular dance parties in New York City. "More Floor" is the follow up to "No Floor" from two years ago. Like "No Floor", this is a collection of unreleased tracks from the previous year. It centers around Secret Agent Gel's take on the dubstep sound - big beats, heavy basses, and a great vibe. "More Floor" brings together some of the best dancefloor-oriented dubstep from the US by Secret Aget Gel. People who are interested in Burial should consider this download.
