Details: Instrumentation: Lennox Gonzalez - Vocals and Guitars John Williams - Keyboards and Electronics Biography: In 2000, John Williams and Lennox Gonzalez discovered they both shared a passion for expressionistic music. Since the bands inception the two have been able to draw on their individual past musical accomplishments and experiments to give Sub-Level 03 its very unique flavor and broad style. The unyielding support of family and friends helped to encourage them to market an album and eventually lead to their first public appearance in 2003. Bolstered by the success of their dbut performance at a small venue just outside Oklahoma City, the band decided to play publicly on a much larger scale. The Pink Revolution Tour kicked off in early 2004 with the first stop in Irvine, California. This successful tour concluded with a bang in Rocket City Huntsville, Alabama in 2005. After experiencing the good, the bad, and sometimes the ugly, of a national tour bringing the band from coast-to-coast, the stars were ready for change. Lennox and John have now completed four albums, a DVD with several music videos, radio spots, a live album, and much, much more. The "Covert Operation Tour" unveils itself this October, 2008, in their home state of Oklahoma. This date will be followed by many more tour dates that can be found on their official website. Where the projects to date could largely be considered a reflection of the bands collective lifetime of experience, the direction they are currently headed will reflect the dynamic changes they now face.
