

Mp3 The Similar Trends - Man In The Moon

[DOWNLOAD HERE](#)

With a unique musical viewpoint and poignant bilingual lyrics, this 5 part, piano-based band blends jazz, pop, indie, and progressive styles through the use of offbeat patterns and soothing ballads, to cafe and eclectic renditions. 13 MP3 Songs POP: Piano, FOLK: Progressive Folk Details: We are a southern Alberta band who all grew up in the prairies together in a small city called Medicine Hat. We all went through the band program at our local high school where our teacher opened our eyes to the joy of playing in not only a concert band, but a jazz band, and influencing us to create a band of our own. We have an acoustic sound in the way that we have not used distortion or synthesizers (other than a harpsichord and organ sound on a keyboard) in the making of this CD. The instruments we use are piano, accordion, acoustic, electric, bass, and classical guitars, drum kit, orchestra bells, ukulele, trumpet, French horn, assorted percussion, and vocals. All of our music is completely original. We have been told that we have a unique fresh style, and we are looking forward to trying to make it in the music business by continuing our writing. Thanks for reading. People who are interested in Tom Waits Barenaked Ladies Wilco should consider this download.
