Related styles: FOLK: Fingerstyle, EASY LISTENING: Background Music People who are interested in Leo Kottke Laurence Juber Pete Huttlinger should consider this download. Details: You are listening to a project that I have been working on for 10 years. All acoustic guitar with some special background instruments . Easy listening music with the title vocal cut "Years With No Tears " ,written this year with the help of a very good guitar friend Manual Gonzales. He also plays harp on "Jock O'Hazeldean". All songs were written from my feelings.....and from the heart. I recorded this CD at Lancelot Studios in Wichita, Ks. Had a great producer and Guitar player -Bruce Huss-work with me and helped keep my sanity during the project! His wife Karen from Rynotek did all the great artwork. The songs are all mine and I used my Taylor GAXXV and Martin OMC LJ28 to record. Having played the guitar for some thirty years and listening to greats such as Leo Kottke, John Fahey and Chet Atkins, I think I have finally developed my own style and hope you enjoy my songs. This CD represents how fast time goes by, how we miss the years with no fears or tears, and how we must make those moments last! I hope you enjoy my songs as much as I have enjoyed writting them. I'm proud to have my music "Kiva Dance" posted on my good highschool friend of 40 years, Roger Baughs site(backroadstouring.org). He takes wonderful pictures. Please visit my Ebay Store "GUITARS 'N STUFF" myspace.com/vinceserrioz! Laurence Juber says: Vince-"I like your steady groove and the ragtime influences. 'Kiva Dance' is a little compressed sounding, but overall it's all nicely presented. " Laurence Juber "
