Related styles: ELECTRONIC: Progressive House, ELECTRONIC: Electro House People who are interested in Quentin Harris should consider this download. Details: Ntuthuzelo Fikeni, Masizole Fikeni, Bongile Fikeni and Viwe Fikeni are four brothers from the Eastern Cape rather known as Zoo Dee Jays {in love with house}. Zoo Dee Jays are signed under a self owned label called Vigg Music/Gigdawg products these guys fell in love with music since early 90's. Since these guys were born and raised by a Christian family music has always been part of their day to day lives singing in church choirs and acting in Sunday school sketches. Things changed when the older brother (Viwe) had reached adolescent and it was time for him to go to a tertiary institution in Port Elizabeth at the beginning this seemed as a separation for the group but this turned out to be an opportunity for new beginnings. When Viwe met up with a friend named Sibonga who happened to be a local Dj/producer he was not so popular but the guy had a very rare style of mixing he could mix kwaito tracks back to back rhythmically as if it was house this is where Viwe learnt basics in producing music (2002) since then everything he learnt he always share it among his three group members in every school holidays they gathered and tried something. In 2005 the group officially started producing tracks that were played in most local (in town) parties and gatherings this gave a group a huge inspiration even though they never got paid from it and till today the guys are still doing house with big love.
