Hello, LemurScripts Here. We have chosen Tradebit as important additional ecommerce platform for our PHP Scripts. What exactly is Country Redirect Pro? Country Redirect Script Pro (The Original) is the most imitated, complete and powerful PHP GeoIP Redirect Script that redirects visitors based on their countries IP address. This program allows the host of a website to specify where users from different countries land when trying to access any page on a website. For example, a visitor from the Netherlands

that accesses your site would be redirected to Netherlands.php and a visitor from France would be redirected to France.php. The best part about Country Redirect Pro is that you can tailor any part of your site to be country and user specific. For example, if users from Spain access index.php they will be redirected to spain.php. Then when they try to go to aboutus.php they will be directed to spaininfo.php. You can do this for every part of your site so that the user experience is completely customizable based on where the user is from. Make More Money With Country Redirect Pro. Example: imagine to redirect US/UK/Canadian/etc. users to content pages monetized with the CPAlead gateway and users from other countries to pages monetized through the Adscend Media gateway in order to maximize your earnings...
