Are You Tired Of Watching From The Side-lines While Everyone Else Is Making Money Because You Don't Know Exactly How The PROs do it? Discover How A 34-year old Computer Geek Went From A Program-hopping "biz-opp junkie" To Earning A Full-time Income Online In Less Than 60 Days! I know what's keeping you from the success you deserve... and I can EASY fix that for you today! :) There are a few basic, fundamental things you MUST do to succeed with an online business. You may not want to hear this, but... some basic computer & internet skills are required to do all the things that will earn you an income online. I did technical support for over 8 years so I've the unique ability to teach you how simply & quickly... Your HELP has arrived! From Daniel McGonagle & Timm Miller Dear Friend, The gurus can't help you succeed because they're much too busy making money doing joint ventures, developing new products, and doing all the things that guru's do. Many also cannot relate to the "little people" trying to make a few extra bucks. A year ago, I started on my quest to make tons of money on the Internet. Like many of you, I treated it like a hobby until I got laid off 2 days before Thanksgiving! Nice, huh? I sure didn't think so... I had to do something and stop messing around. At that point I had joined about 30

programs (sound familiar?), made a little money, but nothing to brag about. Then something happened... a revelation as loud as a gun-shot went off in my head! I wasn't even close to achieving my goals! Everything I did was dooming me to certain failure and an empty bank account. There are many things you need to do to have a "snowball's chance" in you-know-what of succeeding... I didn't learn everything (and probably never will), but I learned enough to make it all work. "You will be amazed at what you can learn when your back is against the wall and you have to provide for a family..." If you're not super-motivated and still playing around, you still need to know what I'm about to reveal to you. Have you had enough of the "secret" methods that are supposed to earn you gobs of cash, but never do? There are no secrets... just basic fundamental tasks that every successful internet marketer knows how to do... I Can Help You In A Way The "Gurus" Can't Because I Know Exactly What You're Going Through Right Now You're feeling Frustrated... Irritated... Experiencing Some Pressure at Home... or you feel "scammed" by products that over-promised and under-delivered... Believe me, I know. I have been there. You Are Going To See What All The Successful And Experienced Internet Marketers Do Each And Every day To Earn Their Massive Incomes! The person who said "Don't Sweat The Small Stuff" was definitely NOT trying to earn money online. I think they wrote most of the ebooks I've read... How many times have you purchased a product but didn't know what to do or how to start? The reason for that is because the details aren't there. The people that create these products are assuming the reader has a basic understanding of how to implement the "secret strategy". That's why there's no "warm fuzzy" after purchasing products any more... *You need to master the mechanics of Internet Marketing *You need to understand the basic principles behind an online sale *You need to be shown step-by-step exactly what to do. Do you want to achieve your true income potential on the Internet? Then you need the skills that all successful marketers possess... You cannot "get by" without these skills, they are 100 necessary for you success. Why are so many people failing at internet Marketing? To be fair and honest, it's not always the fault of the ebook creator or the program director when somebody fails. Many participants in these programs don't know what to do once they've joined. *Some programs promise "We do 90 Percent of the work for you" *Some ebooks are promising to deliver "the solution" ...And very often they do, but most people still don't succeed with the program or product. What does it take to turn failures into winners? Look, not all programs are bad, and not all ebooks are worthless. The reason so many people fail is they do not understand the basic fundamentals of online marketing. You can succeed in just about any market or

program if you know the basics. The abnormally high failure rate can be blamed on 2 things... *All the programs that make everything sound so easy, and *The lack of basic, fundamental marketing skills. You need to know how to make any program work for you. You need to apply your skills to make good use of the information in ebooks. The problem with this is that you need those skills. Many programs offer training on their websites, but the "program-hoppers" lose this access when they join another program. So get the skills you need and take them with you wherever you go!! Stop thinking that the "Magic Pill Is Just Over The Hill"... The Key To Your Online Success Is Having The Same Tools And Weapons That Experienced Marketers Use Every Day!
