Mp3 Exoboy - Zeitgeist

A little darker, a little groovier, a little more of that certain something that can only be described as "exoboy". Deep from the darkest corners and brightest windows comes another installment in my quest to create music that I would want to live by. 13 MP3 Songs ELECTRONIC: Dub, ELECTRONIC: Trip Hop Details: I love a great track... no matter what genre or where it comes from, from Hank Williams to death metal. But sometimes, in this crazy spinning ball of mud and rock, it is hard to find that one sound that really reflects your personality... so, if you can't find it, create it! I hope this cavalcade of craziness is as much fun for you to listen to, as it was for me to create it. A cool soundtrack for a sometimes uncool world... cheers! People who are interested in The Cinematic Orchestra Tosca Lemon Jelly should consider this download.
