

# Mp3 Perfect Tommy - Everything Has To Be Big

[DOWNLOAD HERE](#)

Universal dance music. Rhythmic and wild. Guaranteed to get your a\*\* on the dance floor. 8 MP3 Songs  
ELECTRONIC: Dance, ELECTRONIC: Euro-Dance Show all album songs: Everything Has to Be Big  
Songs Details: While based out of Las Vegas Nevada, Perfect Tommy wrote most of the tracks for their 1st CD while touring the US. The 1st version of the album was originally recorded in Vienna Austria at Hit Point Studios by Austrian producer Jack Fronzcek and Perfect Tommy. Additional tracks and arrangements were written, produced and remixed by the group on location in between shows around the world in Japan, Singapore, Indonesia and the USA! The final production and mastering was finished by Jack in Vienna while the group was forever traveling to support the band's break-out album. This ""International"" CD was 1st released in the USA by PT109 Records and later in Europe by Rams Horn International (Holland) Dance Factory Records (Germany). Preceding the CD, PT109 Records released a special 12" single in the USA which included remixes of three seperate tracks, ("Acid Rain", "Sex Kills and a earlier version of "Party Girl"). This 12" single, (that ended up being more like a EP than a single), was spun and charted nationally on collage radio stations. With the release of "Everything has to be Big", Perfect Tommy quickly became a college cult classic in many markets. The CD includes the college radio and Euro dance hits, ""Secret Garden", ""Sell Me A Lie", "Acid Rain" plus much more. In support of their 1st release, the band hired and imported cutting edge choreographer Eric Red from Los Angeles to prepare Vicky, Teri and Alison for their up and coming national tour, "The BIG Show". While touring non-stop around the USA with the "BIG Show", Beaux Sisson and Jimmy Fassler began work on tracks for the their second CD with out missing a beat or even catching a breath!
