

Media Autoresponder Email Software - Plr

[DOWNLOAD HERE](#)

Media Autoresponder Email Software..... (Note: This package comes with master resell rights (MRR) AND private label rights (PLR). It includes multiple salesletters plus the full sourcecode of the product.)

Media Autoresponders is a software script that runs on your web site, which enables you to setup and automatically send Unlimited Media Autoresponder emails, Unlimited Media follow ups, Unlimited Media broadcasts and Unlimited Media campaigns. Please don't mistake Media Autoresponders Software as any run-of-the-mill email autoresponder. Media Autoresponders Software does things no other autoresponder on the market does. With Media Autoresponders you can send emails in the following formats automatically: Look At The Possibilities With Media Emails... Media Product Announcement Emails -- Increase your orders with new product announcements by using Video Email to sell and demonstrate the product in action. If you are selling a product as an affiliate you will stand out from the crowd while all the others use the standard text email that is normally provided by the affiliate company. Order Confirmation Video Emails - Thank your customers for their order with a follow-up Video Email. This gives them reassurance and the feeling of a more personal service, reducing refund requests.

Customer Support Emails - Cut down on customer service resources. Instead of telling your customers how to do something complex using a number of text emails, show them with one Video Email. Reduces confusion, we all know it is much easier to do something if we are shown how to do it. Media Autoresponder Courses - Instead of letting people read your lessons, let them hear or watch them. A Media autoresponder course immediately creates the impression of higher value than a plain text course, even if it contains same content. Media Email Newsletter - Make your ezine newsletter come to life. Using audio commentary and/or video to promote new ideas to subscribers. Video / Audio Testimonials - Imagine the massive impact your sales will generate with your customer testimonials on video / audio. The effect of Media email testimonials have over plain text testimonials is astonishing. They add pure realism and support to your offers. The possibilities of using Media emails are truly unlimited! All this is possible and much, much more with Media Autoresponders Software. Media Emails immediately grabs your prospects attention. A recent study found that emails that used Media more than tripled conversions over plain text emails. According to Forrester Research "Media email will replace text email messages as the online communications mechanism. Text-based email will seem as archaic as black and white television." However, presently a very small percentage of people have their computer set to not receive HTML and Audio / Video Emails, so we have added a powerful feature to Media Autoresponders Software called Automatic Email Format Detector, which automatically combines several email message formats together in a single email message - Plain Text, HTML, Audio / Video and AOL Optimized Plain Text. Media Autoresponders Software automatically detects what email format a reader can receive and then delivers it to them. Those that can receive HTML, Audio / Video, then it will be delivered automatically to them. When only Plain Text can be read, only Plain Text is delivered. When the email message is sent to an AOL user and they can't receive HTML, Audio / Video, then the Plain Text email message is automatically optimized and delivered with properly formatted hyperlinks that AOL users can read and click. This package comes with master resale rights (MRR) AND private label rights (PLR). It includes multiple salesletters plus the full sourcecode of the product. This Product Comes With Full Master Resale Rights
