Discover Profitable Niches With Little Ad Competiton... Fast! As a busy marketer, it can be really hard trying to monitor multiple websites everyday. And sometimes, when a change occurs (such as a 404 error), you might be unaware until some good, friendly soul informs you about it. So, you decide to check up on your sites on a daily basis. Well, youd have to click them open one by one, make the necessary changes, and check them every once in a while. Now, what happens when you have 50 sites? Thats not all. One of the crucial parts of owning an online business is to remain competitive in your niche. And in order to do that, youll have to check up on your competitors every once and then, note the changes that they have made in their blogs or webpages, and act accordingly. Now, as a marketer, you cannot afford to waste hours upon hours trying to open 3-4 windows monitoring your sites and a couple more windows monitoring your competitors webpages just to see when they have updated with something new! Youll need those precious hours and time to focus on your other marketing endeavors! But heres the good news: We have created a software that makes tracking your webpages and your competitors webpages simple and straightforward. Introducing Monitor Buzz... Monitor Buzz is an easy to use and effective

desktop application that you can use to track changes in multiple sites being your own as well as your competitors! It will free your hands in having to constantly look up changes in your competitors blogs and webpages.
