The Easy Way For You To Start Using & Profiting With Online Video! VideoWebWizard is a new software tool that allows you to easily and quickly convert videos into web format. Even if you are completely new to computers or just are not good with technology, dont worry! The VideoWebWizard software has a wizard-like functionality. It literally walks you through the few steps to converting video to website format. How Does VideoWebWizard Work? First off, VideoWebWizard converts all the popular video formats and a few, even, that most comparable software programs dont support. VideoWebWizard supports AVI, WMV, MOV, MPG, FLV, VOB, ASF, and MP4 video formats. (Dont understand all that computer-speak? Thats fine, you dont have to. All it means is that you wont find yourself frustrated with VideoWebWizard because its not able to convert a certain video format!) VideoWebWizard converts these video files into a file format called FLV, or Flash Video. Its a technology that works with almost all computers and web browsers, even computers running on a non-Microsoft operating system like Macintosh or Linux. By the way, when you see a video on a website, 99 of the time it is probably in Flash video format. Why? Because Flash works almost everywhere, like I just mentioned, and Flash videos usually have a small file

size (so they load quickly) while keeping good quality. Many times you can compress a file to 10 or less of its original file size! Then, after VideoWebWizard automatically converts your video into Flash format, it generates a small web page with your video on it, complete with a player and controls (play, pause, volume, and so on). Upload this page to your website, and youre done! Convert Almost Any Video To FLV (Flash) Website Format (AVI, WMV, MOV, MPG, FLV, VOB, ASF, and MP4 Video Formats) Manually Control The Quality Settings Of Your New Video (With Video Resolution, Video Bitrate, Audio Bitrate, Video Frame Rate, & More) OR Simply Use One Of The Easy Presets Such As Cable Or Dial-Up! Choose From A Total Of 9 Website Player Styles (* Once You Install The Free Bonus Player Package) Use A Completion URL To Automatically Redirect The Viewer To A Website Address After The Movie Has Ended (To An Order Page, Affiliate Link, And So On! This Is A Powerful Feature!) Here Are Just A Few Of The Things You Can Put On Your Website With VideoWebWizard... Video ads or infomercials Company presentations or talks Funny, strange, helpful, or cool videos that go viral & create an avalanche of traffic to your website Webcam messages to website visitors or newsletter subscribers Training videos for your subscribers, friends, affiliates, and so on Videos for organizations, churches, and so on Promotional videos for a band Family videos on your personal website And much, MUCH more! This is just a start! Dont underestimate the power of video. It can bring your website and your business to whole new level. VideoWebWizard is the tool that unlocks the power of video by allowing you to put videos on your website.
