there are many people who spend thousands of dollars on web designers for simple tasks such as these, but they are not smart enough to get hold of VIP Website Builder Tool which is way cheaper)! But you are a smart fellow which is why you have landed here! Sure, there are giant web designing software such as Macromedia Dreamweaver or Microsoft FrontPage, and while they are good at what they do, they cost an arm and a leg. Dreamweaver, for example, costs more than \$400, excluding taxes and duties! And XsitePro 2, the pet website builder software of most internet marketers, costs a whopping \$300 as of this writing! Then there are cheaper alternatives available at an average price of \$30-\$50 but they do not come anywhere close to the features and functionalities offered by our VIP Website Builder Tool. And heck, we are not even charging you that much for this awesome software! Just look at some of the features this tool offers to see what we mean: 1. Easily add downloadable files, hyperlinks, images, tables, media files, flash with simple steps. For example, if you want to add Flash to your web page, there is no need to add object tag and complex stuff as is required by other HTML editors and site creators. Just select the Flash file and click OKAY! VIP Website Builder is that easy to use! 2. Directly Copy and Paste content in your project. 3. Format your added texts with Advanced Formatting menus. 4. Easily add background music or media files to any web page with a single mouse click! 5. Change the look and feel of your websites by selecting template themes with different images and color combination. Changing from one theme to another would not affect your added content. DO you know that we are even giving way more than 30 ready-made themes with this software at NO EXTRA cost? That is because we want to make website building as easy as pie for you! 6. Includes a built-in Spell Checker for quick spelling and grammar checking! That is just the tip of the iceberg. Do not forget that the VIP Website Builder Tool also offers the following options: 7. Easily lets you add your company/website logo with slogan text with one click. 8. In-built Preview Tab to enable you check your website as you are creating it. 9 Add your copyright message with one click. No more messing with JavaScript codes! 10. Create multiple web projects with ease! No more tedious opening and closing each file in order to open the other one! 11. Lets you create child links for any menu. Add Edit or Delete any menu with tree view. For example: You create a web page "About Us". In that page you need to add a link to a new web page. Go to "Tree View", right-click on "About Us" and click "New Page". That is it! Now you have a new page that "About Us" links to :) You can add one or more web pages. As many as you like, and have them all linking to whatever you want with the click of a button. In fact, you can have different child menus for main menu or any child

menu. 12. Quick Search-n-Find Capability. Search for anything in a web page, click "Highlight All" and it will get highlighted throughout the page. This is particularly useful when you have a lot of text on the page. 13. Have you ever been stumped by over-complicated FTP clients? Our in-built EASY FTP tool will automatically upload your websites to your web server! You do NOT need to use any external FTP program for this purpose! Our FTP tool supports almost all major web server platforms and web hosting accounts. What is more, you can even save one project with multiple themes and upload it in multiple folders on multiple servers! I am yet to get hold of an FTP program which offers this cool functionality! And MUCH MUCH MORE! So do not wait anymore! We cannot guarantee that this low price would last forever.
