Rock, Experimental, Humor, Pop, World 10 MP3 Songs ROCK: Roots Rock, POP: Quirky Details: ...Dime Novel, long thought to be an urban myth, was recently found, resting, (rather too comfortably) and nursing a beer at AXEL'S (Oakland Locust), shortly after completing the "dementia" final mix-down. We translate through the thick Milwaukee accent... "Aaachh! How da heck would I know what it SOUNDS like, eh?" said Novel "I've been in dat studio dere for somethin' like a zillion hours. Jeez! My ears are just shot. Aaach, hey! It's some kinda lounge-metalish, latin-jungle-funk-techno-surf, r&b-classical-punk-pop-stuff. YOU tell ME what it sounds like! OK? Or, Hmmm...ask me again in ten years." "Yah, sure hey, I take da credit or da blame for 'dementia'; depends upon yer perspective. But Aaach! the players, eh!? Dat's a diff'rent matter. Jas incredible. Dos folks are da best. I owe 'em. Speakin' of 'oweing'...you're not gonna tell 'em you found me, eh? I still got some session fees to pay...not ta mention my ex da alimony...." Oh, don't worry, Mr Novel. Your secrets are safe with us... We left Mr. Novel at AXEL'S, soon after ordering, and paying for, yet another beer Novel had requested in a rather slurred manner. We decided to get while the gettin' was still good.
