Quickly And Easily Secure Your Download/Thank You Page Do you want to keep giving away your Digital Products, or do you want to secure them so that anybody wanting your products must actually purchase them? The E-Z Download Page Protector is for those of you that are looking for a quick, easy, and very effective solution to securing your Product's Download/Thank-you page. The E-Z Download Page Protector allows you to quickly secure your Download or Thank-you page without the need for your site to communicate with your Payment Processors site, (ie: PayPal's IPN system or ClickBank's Secure Key variable). All you need in order to utilize The E-Z Download Page Protector is the simple ability to pass a Thank-you URL through your Payment processor. Something all the popular Payment Processors allow for. The E-Z Download Page Protector works with all your current or new Download/Thank-you pages. Your Download page will only be accessible to your purchaser for the amount of time you determine, it can be just until they download the product and close their browser window, (known as a Session Expiry), or they can have access to your Download/Thank-you page for any number of days you that predetermine. Not only that, your buyer will never see the URL to your actual Download/Thank-you Page. It keeps your URL hidden, but shows your Download/Thank-you page in a secure Web Page instead. Your Download/Thank-you Page will forever be secure, even if a purchaser of yours passes the URL on to a friend... Unless that other person purchases from your web site, they'll only receive an Expired Web Page notice!
