Swampadelic Thump;heavy on the bass,slide dobro-monster, verbal muse,and hybrid bluz-rawk political evolution. 11 MP3 Songs BLUES: Funky Blues, COUNTRY: Country Rock Details: While at a blues sance I am inhabited by the spirits of Howlin Wolf,John Zorn, Jim Morrison, Tom Waits, Captain Beefheart and Tinkerbell. I am locked in a beer and blood soaked studio by Iggy Pop and ordered to produce an album in 8 hours.There are only Cheese Doodles to eat and STRONG black tea to drink. Access to the restroom is denied. This is what my music sounds like. A purist I ain't. Music and the inspiration it takes to create it, and the dedication it takes to nurture it cannot be canned or marginalized by industry PIMPS. There's just too much SOUL out Here. I BELIEVE THAT OR I'D NEVER PICK UP ANOTHER INSTRUMENT OR WRITE ANOTHER SONG. My music might be best described as SWAMPADELIC THUMP. I have also been charmingly described as WOODY GUTHRIE on a party mix of Viagra and L.S.D. I disagree about the Viagra and LSD. Coffee,sweet potato pie and water do the the trick. If the sandwiches are good, the vibe right, and the purpose correct- HELL- I'll play in your backyard. This Music Stuff IS NOT a fashion statement.
