Futuristic SF Romantic Bondage! In a future world, Carol Taylor has it all, wealth, position and the protection of status. The only unwanted presence in her life is Daniel Kent, a hero of the galactic war, the man she was forced to marry in order to protect her family business. But Daniel has his own plans, and those include breaking Carol down to nothing more than a slave, a toy for his pleasure. His travels beyond Earth have given him the means and experience to destroy a woman before building her back up into the submissive, obedient creature he wants them to be. And now he determined to use every ounce of his knowledge, his patience and experience on the strong young woman he has forced to marry him. Meanwhile Carol plots to escape him and her world! What neither of them suspect is the growing bond between them. The first volume in a brilliant new work of science fiction romantica. Author: Pray, Terri
