Terry Morgan was a timid housewife who didn't care to allow her husband to experiment with her body sexually. Terry's background had been that of an overly-strict family where her mother was determined she would maintain a high moral-code. Her mother who ran an apartment house, had learned from first-hand experience how perverse people could become sexually. And when her young daughter was growing up over and over, she'd tell her what not to do. These critical comments made such a startling impact upon her that when her husband wanted a little variety introduced into their bedroom activity, Terry objected. However, when Brad finally did manage to convince her to experiment, she became so excited about the things she'd been missing, and had always secretly wanted to do that she became far more sexually wild than her husband ever counted on.
