Psychedelic riffs and dream inducing vocals... each song could evoke tears for its sheer beauty. 12 MP3 Songs ROCK: Emo, POP: Delicate Details: The band came together from noise sessions, a mutual love for Miles Davis and perhaps as a great big cosmic joke on a cranky neighbor (Bill, who makes a brief appearance between tracks). Somewhere between the psychedelic riffs and dream inducing vocals is a band that's actually good. If only for the pure creativity and spontaneous sounds, Big Milk deserves a place on every shelf. Not because it sounds like something else but because of what it is and what it is becoming. Musicians who play from the heart first. Images, feelings, words, stories packed onto a shiny disc, capturing an emotion. A soundtrack for dreams. -- excerpt from Rose Ladanyi's review of Big Milk found at simplypaz Big Milk is: Luciano Lenchantin - vocals and guitar Mike Fonte - guitar and vocals Steve Luxenberg - bass
