Melodic rock/groove with fusion influences and well thought out lyrics and Harmony. 9 MP3 Songs
ROCK: Progressive Rock, JAZZ: Jazz Fusion Details: Fans of Pink Floyd, Allman Brothers, U2, Jeff Beck or Kenny Wayne Sheppard will definitely find kindred souls here. They definitely have a guitar monster, so if you were to think of Jeff Beck's Freeway Jam landing on the Dark side of the Moon, with Harmony, you might get a idea what these guys are like. The musicians that the members have played with is a pretty fine pedigree in rock,fusion,blues and funk...With the funk gamut running from Zigaboo Modeliste [original "Meters" funk from New Orleans],to Miko [Prince's guitarist from Purple Rain days] to Eddie Murphy [yeah,...that Eddie Murphy]and all points in between. Rock,fusion,funk,blues and harmony all rolled into an extremely authentic sound. Their live show is a high energy rollercoaster all over the musical landscape,united by their unique groove. You can also find live VIDEOS of the band from gigs around the San Francisco bay area on their website cosmicmercy[7 videos can be viewed on a dial up modem,the rest need a high speed connection,everything else is completely accessible on a dial-up]. You'll also find all sorts of other info, bios, booking, audio clips,reviews and contact numbers there. One listen and you will remember Ken Sealy's burning guitar work,the groove,and the lyrical content and harmony [especially in these days of all flash and no substance]. Enjoy the ride.
