

Paleopalynology

[DOWNLOAD HERE](#)

Chapter 1 What Paleopalynology Is and Is Not- 1. Definition of the subject - 2. Historical Matters - 3. Annotated Bibliography of Readily Available Publications - Chapter 2 Why One "Does" Paleopalynology and Why It Works- 1. Purposes- 2. Why Paleopalynology Works- 3 Disadvantages and Limitations- Chapter 3 The Natural History of Palynomorphs- 1. Introduction- 2. Chitin- 3. Sporopollenin- 4. Palynomorphs in Petroleum- 5. General Occurrence of Palynomorphs in Time- Chapter 4 Spores/Pollen Basic Biology- 1. Introduction- 2. Bryophyte Life Cycles- 3. Pteridophyte Life Cycles- 4. Seed Plant Life Cycles- 5. Spores, Pollen, "Miospores," and Other Terminological Troubles- Chapter 5 Spores/Pollen Morphology- 1. Introduction- 2. Morphological Types- 3. "Shell Code"- 4. Morphological Types in Detail- 5. Supplemental Notes on Morphology- 6. Exine Surface, and Subsurface: Sculpture and Structure- 7. Spores/Pollen Orientation and Shape- 8. Microscopic Methods and Sporomorph Morphology- Chapter 6 Stratigraphic Palynology--Precambrian, Cambrian, Ordovician- 1. Introduction- 2. Acritarchs and Other Phytoplankton of Precambrian Ordovician- 3. Cambrian/Ordovician Cryptospores- 4. Cambrian/Ordovician Chitinozoans- 5. Cambrian/Ordovician Scolecodonts- Chapter 7 Cambrian to Silurian Non-Marine Palynology- 1. General Discussion- 2. "Non-Spore" Palynology- Chapter 8 Devonian Palynology- 1. Introduction- 2. Paleozoic Spore Morphology and Pertinence to the Devonian- 3. Megaspores, Seeds, and Pollen- 4. Pollen vs. Spore Morphology, Polarity, and Germination- 5. Non-Spore Palynomorphs in the Devonian- 6. Devonian Palynostratigraphy- Chapter 9 Carboniferous/Permian Palynology to the End of the "Paleophytic" - 1. Introduction- 2. Potonie's Turmal System and Modifications of It- 3. "Turmal" Classification of Paleophytic (Silurian To- About Mid-Permian) Spores and Pollen- 4. Paleobotanical Matters Regarding the Late "Paleophytic"- 5. "Paleophytic" Spores/pollen: the Plants Which Produced Them- 6. Paleoecology of Late Paleozoic Spores- 7. Comments on Trends in the "Paleophytic" and the- "Paleophytic"/"Mesophytic" Boundary- 8. Morphological Comment Regarding Carboniferous/Permian- Pseudosaccate and Saccate Spores/Pollen and Related Matters- 8.1. About "Protosaccate" and "Eusaccate"- 9. Late Carboniferous-Permian Megaspores- 10. Carboniferous-Permian Acritarchs- Chapter 10 Permo-Triassic Palynofloras- 1.

Introduction- 2. Striates and Bisaccates, Permo-Triassic Hallmarks- 3. Other Spore/Pollen Types of Permo-Triassic- 4. Permo-Triassic Acritarchs- 5. Terminal Permian "Fungal Spike" (?) and Related Matters- Chapter 11 Triassic-Jurassic Palynology- 1. Introduction- 2. Circumpolloid Pollen- 3. Colpate (Sulcate) Forms in The Triassic/Jurassic- 4. Further Notes on Triassic/Jurassic Saccates- 5. Jurassic Palynomorph Paleogeography- 6. Major Known Botanical Relationships of "Mesophytic"- (Late Permian-Early Cretaceous) Dispersed Spores/Pollen Genera- Chapter 12 Triassic-Jurassic Megaspores, Dinoflagellates, Other Microplankton- 1. Acritarchs and Algal Groups Formerly Classified as Acritarchs- 2. Megaspores- 3. Dinoflagellates- Chapter 13 Jurassic-Cretaceous Palynology: End of the "Mesophytic." Advent and Diversification of Angiosperms. Dynamic Evolution of Dinoflagellates.- 1. Introduction- 2. Origin of the Angiospermae- 3. Normapolles Pollen- 4. Late Cretaceous Angiosperm Pollen and Wodehouseia and Aquilapollenites - 5. Cretaceous Palynofloral Provinces... EAN/ISBN : 9781402056109
Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Traverse, Alfred
