The Next Time You Create Your Own Podcast Or Vblog! Podcasting or Vlogging can be loads of fun when you are doing it just to play around... Do it like a real PRO with Podcast Teleprompter starting today! PodCasts and Vblogs are a pretty incredible new technology, arent they? If youre like me, youve probably thought about doing some PodCasting of your own. Maybe youve taken the first step and done a recording. I did that, too, and I was really stoked about it until I played it back. It went something like this: Uh yeah this is YourFirstName. YourFullName. Im gonna review this CD from no, wait, its a DVD. OK, Im reviewing the latest, uh, DVD from Coldplay Oh, THAT was impressive. Yeah, right. Like Id want to send that out over a PodCast or Vblog, with all the ums and ahs. No way, Jose. But

then I got an idea Suppose you could use a simple tool to edit out all the ums and ahs and do-overs. Imagine you do your PodCast or Vblog, talking just like you normally do without having to be self-conscious or think about what to say. Then you use a simple tool to smooth it all out so it sounds like a pro recorded it. Sounds too good to be true? Well, it isnt if you have the right tool. Think about it. The ability to edit and delete could make you into a PodCast or Vblog star overnight. But Cleaning Up Recordings Is The Hard Part You could pay a sound engineer to clean up your PodCast, but it would cost you a lot of moneythose guys make at least \$50 and hour. But instead of paying some sound engineer a fortune OR trying to read from a script (which sounds fake anyway), what if you had PodCast Teleprompter: Finally! A way to quickly and easily make every PodCast or Vblog you make sound just like Anderson Cooper on CNN or someone like him recorded it. If You have always wanted to be able to quit your day job and break into the Internet Marketing world podcasting or vlogging is a great way to do it! Grab this software now!
