Included For A Limited Time! Date: Sunday, August 15, 2010 From: Gary McCaffrey and Terry Jett Dear Marketer, It's easy to get rich online! All you have to do is provide good content that people want! I think it was John Reese who said something to that affect, whoever it was said it, I agree with them 100! But how are you supposed to know what it is people are looking for? Too often companies waste a lot of time and money developing products they think people are going to love. They may as well be flushing money down the toilet if they don't first conduct some basic market research. Asking your prospects opinion is the only sure fire way to guarantee you're not wasting time and money developing products and content. When looking for a simple system I could use to conduct my own surveys online, I found that every solution available suffered from one or more of the following flaws... \* Ongoing Fees - Costly monthly or yearly fees to keep your surveys online. \* Limited Responses - Only allowing you to view the results of a limited number of responses. \* Limited Campaigns - Only allowing you to have a limited number of surveys online at any given time. \* High Ticket Price - Any that don't charge monthly fees can cost upwards of \$147 So I set out to create a simple but powerful solution, and I think I've done just that...

Introducing The Brand New... 'Web Poll Pro' Web Poll Pro is a fully featured professional online survey script with the same power and functionality of the high ticket and monthly fee survey solutions. It is coded in php with a robust database driven backend, meaning it is very dependable. Once installed it will take less than one minute to publish your first survey online.
