The Days Of Storing Notes On Scraps Of Paper Are Gone Forever... Unless, of course, you don't mind those ruggats of yours with sticky fingers snagging and hiding them. It's okay, of course, if you don't mind losing ideas that could be money in the bank if acted upon. Introducing Idea Bucket! While a simple script, Idea Bucket makes it quick and easy to store your notes and ideas! All of your ideas are listed in an idea gallery which is password-protected. Only the admin user may add, delete and view ideas. Installation is a snap! Even if you've never installed a script before, installing Idea Bucket is quick and easy! This Script Is Perfect If You Want To Quickly Jot Down Ideas But Don't Want To Lose Them Somewhere Inside Your House! Just think about it! There are a million and one ways to lose any old scrap of paper laying around at home. Culprits include: Your spouse mistaking your little slip of paper as trash. Your children snagging the paper and either destroying or misplacing it. Note-hiding accumulations of mail, papers and all other sorts of odds and ends laying around on counters and desks. Frisky pets commandeering a new plaything. With Idea Bucket, on the other hand, you won't have to worry about any of these issues. You simply type your idea or note and click the 'Add my idea!' button.
