

Cell Signaling & Molecular Targets In Cancer

[DOWNLOAD HERE](#)

1;Cell Signaling & MolecularTargets in Cancer;3 1.1;Acknowledgement;5 1.2;Contents;7
1.3;Contributors;9 1.4;Chapter 1: GRB2 Signaling as a Molecular Target for Cancer;13
1.4.1;Introduction;13 1.4.1.1;Adaptor Proteins in Cell Signaling;13 1.4.1.2;The Grb Family;14 1.4.2;The
Adaptor Protein GRB2;15 1.4.2.1;Grb2 in Cell Signaling;15 1.4.2.2;Grb2 and Cancer;17
1.4.2.3;Involvement of Grb2 in Invasion and Metastasis;18 1.4.2.3.1;Grb2 Involvement in the Early
Phases of the Metastatic Cascade;19 1.4.2.3.2;Role of Grb2 in Angiogenesis and Dissemination;24
1.4.2.4;Development of Grb2 Inhibitors as Anticancer Drugs;26 1.4.3;Conclusions and Prospectives;29
1.4.4;References;30 1.5;Chapter 2: Human Arylamine N -acetyltransferase 1: From Drug Metabolism to
Drug Target;35 1.5.1;Introduction;35 1.5.2;Human NAT1 Gene Structure and Polymorphism;37
1.5.3;Human NAT1 Protein Structure;40 1.5.4;Animal Models to Understand NAT1 Functions;41
1.5.5;Possible Relevance of NAT1 in Cancer;42 1.5.6;NAT1 as a Drug Target in
Cancer;431.5.7;References;45 1.6;Chapter 3: Targeting Argininosuccinate Synthetase in Cancer
Therapy;48 1.6.1;Introduction;48 1.6.2;Background;48 1.6.3;Why Arginine Deprivation Is Important;49
1.6.3.1;Preclinical Antitumor Activity of ADI-PEG20;51 1.6.3.2;ASS Expression and Arginine Deprivation
in Melanoma;51 1.6.3.3;Arginine Deprivation in Hepatocellular Carcinoma;52 1.6.3.4;Arginine Deprivation
in Other Tumor Cell Types;53 1.6.4;How Arginine Deprivation Affects Growth and Apoptotic Signaling;53
1.6.4.1;Arginine Deprivation Affects mTOR Signaling;53 1.6.4.2;Arginine Deprivation on
RAF/MEK/ERK1/2 Signaling;54 1.6.4.3;Arginine Deprivation Leads to Autophagy in ASS() Cells;54
1.6.5;How Arginine Deprivation Induces Cell Death in ASS() Melanoma Cells;55 1.6.5.1;ASS Expression
and Cisplatin Resistance;56 1.6.5.2;Other Effects of Arginine Deprivation;57 1.6.5.3;Clinical Trials with
ADI-PEG20;58 1.6.6;Concluding Remarks and Future Direction;59 1.6.7;References;60 1.7;Chapter 4:
Parathyroid Hormone Related Peptide Signaling in Cancer ;63 1.7.1;Introduction;63 1.7.2;PTHrP Gene
Structure and Regulation;64 1.7.3;Cancer Cell Growth;68 1.7.3.1;Regulation of ERK1/2 by G s;73
1.7.3.2;Regulation of ERK1/2 by G a q;75 1.7.4;Apoptosis;77 1.7.5;Invasiveness and Integrins;79
1.7.6;PTHrP and Bone Metastases;83 1.7.7;References;88 1.8;Chapter 5: Signalling Molecules as

Selective Targets for Therapeutic Strategies in Multiple Myeloma;96 1.8.1;Epidemiology and Aetiology;96 1.8.2;Pathobiology of MM;96 1.8.3;Targeting Growth- and Survival-Promoting Signalling Cascades in MM PCs;98 1.8.3.1;The IL-6 Signalling System;98 1.8.3.2;IGF-I Signalling;101 1.8.3.3;The NF- κ B Pathway;101 1.8.3.4;The PI3K/AKT Pathway;102 1.8.3.5;Bcl-2 Protein Family;102 1.8.3.6;Farnesyltransferase Inhibitors (FTIs);103 1.8.4;TRAIL;104 1.8.5;Targeting Protein Maturation, Degradation and Acetylation;104 1.8.5.1;Hsp90 Inhibitors;104 1.8.5.2;Proteasome Inhibitors;105 1.8.5.2.1;Bortezomib;105 1.8.5.2.2;NPI-0052;106 1.8.5.2.3;Carfilzomib (PR-171);106 1.8.5.3;HDAC Inhibitors;106 1.8.6;Targeting the Myeloma Malignant Bone Marrow Microenvironment;107 1.8.6.1;Immunomodulatory Therapies;107 1.8.6.2;Anti-angiogenic Therapy;108 1.8.6.2.1;VEGF Inhibitors;108 1.8.6.2.2;Fibroblast Growth Factor Receptor 3 (FGFR3) Inhibitors;109 1.8.6.3;Other Signalling Pathways;109 1.8.6.3.1;P38 MAP Kinase Inhibitors;109 1.8.6.3.2;TGF β Inhibitors;109 1.8.7;Summary;110 1.8.8;References;110 1.9;Chapter 6: Role of Bile Acids in Carcinogenesis of Gastrointestinal Tract;118 1.9.1;Introduction;118 1.9.2;Bile Acids and Carcinogenesis;119 1.9.3;Bile Acids and COX-2 Expression in Gastrointestinal Carcinogenesis;120 1.9.4;Bile Acids and Human Gastrointestinal Cancer;121 1.9.4.1;Esophagus;121 1.9.4.1.1;Esophageal Squamous Cell Carcinoma;121 1.9.4.1.2;Barrett's Epithelium and Esophageal Adenocarcinoma;121 1.9.4.1.3;CDX-2 and Barrett's Epithelium; EAN/ISBN : 9781461407300 Publisher(s): Springer, Berlin, Springer, New York Discussed keywords: Krebs (Krankheit), Zelle (Biologie) Format: ePub/PDF Author(s): Chatterjee, Malay - Kashfi, Khosrow
