

# Characterization And Control Of Odours And Voc In The Process Industries

[DOWNLOAD HERE](#)

The purpose of the symposium was to present recent advances in characterization and control of odour and volatile organic compound emissions in the atmosphere, and to contribute to the state-of-the-art of measurement and sampling tools, impact prediction methods and abatement techniques. Topics covered were: Legislative aspects; Emission characterization; Abatement technologies, both recuperative and destructive; and Reduction methods. Apart from the global problems of climate, all aspects relating to the workplace environment and official regulations are discussed. EAN/ISBN : 9780080875200 Publisher(s): Elsevier Science & Technology Format: ePub/PDF Author(s): Vigneron, J. S. - Hermia J. - Chaouki
